

LET US HELP With Your Product Testing

iHUT Mailing Facility

The Decision Analyst and Symmetric campus consists of three brick buildings with a total of 58,000 square feet of floor space. The buildings on our campus are locked at all times and entry is enabled by electronic keys issued only to employees. Security cameras monitor the three buildings and adjoining parking lots 24/7, and a comprehensive fire and burglar alarm system protects the buildings at all times. Security guards are present throughout the week.

The Product Processing and Shipping area shown below totals approximately 1,500 square feet, and space in adjoining buildings is available for product storage as well.

Temperature -Controlled

All space is maintained at a constant temperature of 72 to 74 degrees year round.

Delivery

There is a loading dock in the mail processing area for receiving and shipping test products.

Sanitation

All employees who touch or handle test products, or work in the same room, are required to wear surgical gloves at all times. The product-processing and mail-processing facilities are cleaned daily.

Expertise

We have been conducting in-home use test studies for more than 30 years. Our well trained team is dedicated, meticulous, and ready to help you with your product testing!
