ABOUT US

symmetric

Our worldwide online panels reach more than 7 million consumers in the United States, Canada, Latin America, Europe, and Asia. Over the past 3 decades, we have been at the forefront of technology and transitioned this panel from mail to phone (1980s), phone to web (1990s), and, most recently, to our mobile platform (2010s).

Quality is always top of mind. After a member joins one of our panels and completes the double-opt-in verification process, we take it a step further to verify they are providing thoughtful and truthful responses before they are confirmed as panel members.

This triple-opt-in process helps ensure panelists' engagement and quality.

In addition to building and managing our own panels for more than 30 years, we specialize in aggregating and vetting other sources. We apply our quality standards to all survey responses running through our system, whether that is through our panel, a third party, or a client list. Our experience gained from collaborating with panel partners over the years allows us to complete even your most difficult and hard-to-reach audiences with only the most trustworthy sample in the industry.

We Are
The Sampling EXPERTS

THE SYMMETRIC DIFFERENCE

AWARDS

Our sytem of panel management has led the way in innovation, technology, and data quality for more than three decades. We are often recognized for our quality and customer satisfaction. A couple of our most recent accomplishments include:

A top company for panel research
As seen in **QUIRK'S magazine**

Our panels are ranked #1 in the U.S.
Based on **Prevision Corporation's**
2015 Research Supplier Quality Study for Overall Satisfaction.

A 2016
EXPERTCOMPANY
For
Panel Research
as seen in **QUIRK'S**
MAGAZINE

Prevision
CORPORATION

PII (Personal Identifiable Information)

One of the many benefits of working with Symmetric is our double-opt-in panels. We collect and verify contact information on all of our panelists. This allows for data appends, recontact projects, and a variety of qualitative methods. We verify all of our panelists in order to insure that we have real respondents who provide real insights.

ROBUST PROFILERS

With the average panel member's tenure being more than two years, we have compiled robust targeting information on our members. We have thousands of data points on our panelists.

DEDICATED ACCOUNT MANAGERS

Every client of Symmetric has a dedicated account team that will be with them from start to finish on every project. This team is all located on-shore and has an average of 15 years of experience.
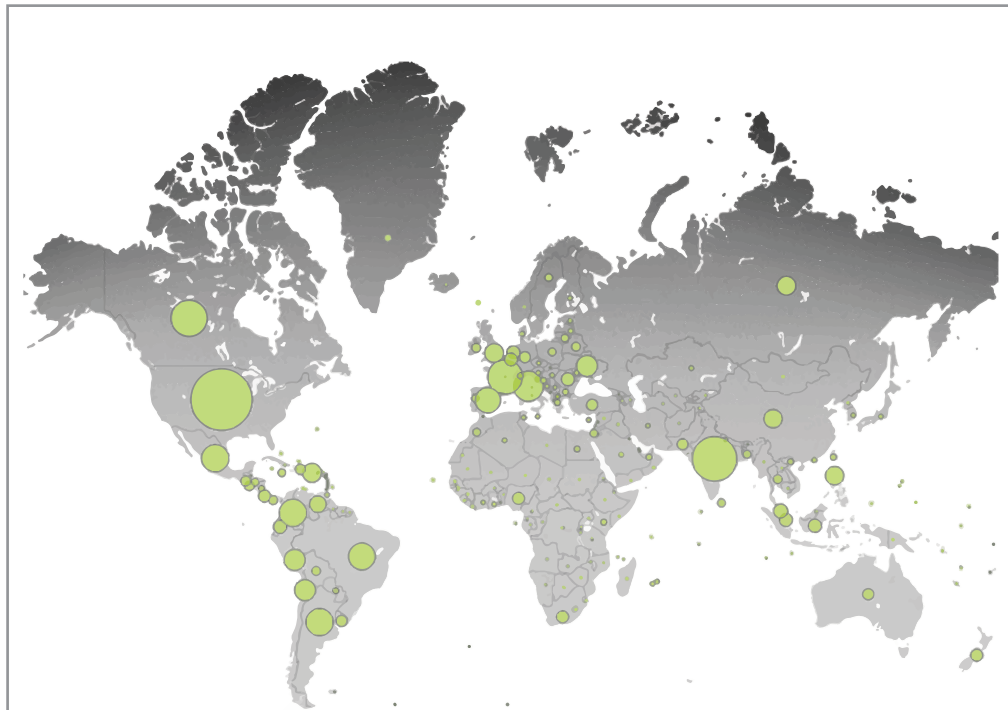

CASH INCENTIVES

We firmly believe that compensating our panel members fairly for both screeners and surveys promotes member engagement, resulting in more thoughtful responses. This is the backbone on which our panels were built 30 years ago, and this philosophy remains a priority for our company today.
